

Mill Bay Nature School

deep roots

newsletter

We respectfully acknowledge that we are learning on the tradition, ancestral & unceded territory of the Malahat, Lake Cowichan, Quw'utsun, Halalt, Penelakut, Stz'uminus, & Lyackson People

AUGUST+ 2018

2nd edition

We have come to understand Mill Bay Nature School as being in the process of being metamorphosized - *like a caterpillar changing into a beautiful and winged moth*. We are still being transformed and we are confident that the outcome will be spectacular! Last week there were over twenty workmen putting forth great effort to finish the floors, put up siding, install new windows, paint the walls, completely remodel the bathrooms, lay down new roofing, build shelving, prepare mudrooms, and more. Most of their summer was spent making sure the space was completely safe - *no mold, no asbestos*. We are thankful for this. Still, we are not yet sure when we can officially move in and show you around. We will keep you posted. It is looking **very** inviting - *teachers have been found hauling in their precious curiosities & amazing collections*. Thank you too for all the donations!

We hope to see you at the picnic.

Patiently waiting & always being transformed, Kim Ondrik

REMINDER -

Our Community Picnic

This Tuesday, August 28

4:00 pm to 7:00 pm

At

Bright Angel Regional Park

Lower picnic shelter

LET'S CHALLENGE OURSELVES TO BE LITTERLESS!

Please bring a cup of lego to help build our learning resources.

Still in need of -

- Two fridges (gently used)
- Wood rounds (small, medium, large)
- Yoga mats (gently used)
- leather/vinyl couches & chairs
- Wooden benches
- Seamstresses/tailors to make cushions (we have the foam and the fabric)

Outdoor Wear

From the very first day of school, the children will spend most of their day outside. Sometimes we will also be walking to Mill Bay Nature Park ... so please ensure they have comfortable footwear!

FACEBOOK

Have you joined our closed Facebook group yet? It's a very good place to learn, as well as communicate with Mill Bay Nature School community members.

Remember -

Feel free to contact Kim if you or your child have any questions about start-up.
